Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. There are three sections to each guide: Introduction - includes advice on how to use the guide, an explanation of the skills being tested by the assessment objectives, an outline of the unit or module and, depending on the unit, suggestions for how to revise effectively and prepare for the examination questions. Content Guidance - provides an examiner's overview of the module's key terms and concepts and identifies opportunities to exhibit the skills required by the unit. It is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics. Question and Answers - sample questions and with graded answers which have been carefully written to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner.

In recent years, there has been an increasing demand for, and rapid development in, the learning and teaching of Asian languages as a foreign language throughout the world. Many governments recognize that Asian languages are of strategic economic importance, and thus they are now offered as a foreign language by a great number of schools and higher education institutions. This book contains chapters written by different authors from several countries on key issues and problems in the teaching of the Chinese, Russian, Farsi, Japanese and Malaysian languages, and some comparative studies. The contributors here explore future directions in the teaching of Asian

languages in the 21st century. The ten chapters of the book have been prepared by the authors using the scholarly papers they presented at the Second International Symposium on Asian Languages and Literatures (ADES), which was held on 3-4 May 2012 at Erciyes University, Kayseri, Turkey, under the title of "Teaching of Asian Languages in the 21st Century".

The Routledge Research Companion to Popular Music Education Hodder Education
Popular music is a growing presence in education, formal and otherwise, from primary school to postgraduate study. Programmes, courses and modules in popular music studies, popular music performance, songwriting and areas of music technology are becoming commonplace across higher education. Additionally, specialist pop/rock/jazz graded exam syllabi, such as RockSchool and Trinity Rock and Pop, have emerged in recent years, meaning that it is now possible for school leavers in some countries to meet university entry requirements having studied only popular music. In the context of teacher education, classroom teachers and music-specialists alike are becoming increasingly empowered to introduce popular music into their classrooms. At present, research in Popular Music Education lies at the fringes of the fields of music education, ethnomusicology, community music, cultural studies and popular music studies. The Ashgate Research Companion to Popular Music Education is the first book-length publication that brings together a diverse range of scholarship in this emerging field. Perspectives include the historical, sociological, pedagogical, musicological, axiological, reflexive, critical, philosophical and ideological.
